

INTERNATIONAL EDUCATION CONGRESS

More than a congress...

www.educongress.org

WHAT IS EDUCONGRESS?

EEDUCongress is an international congress that brings together all stakeholders of education by sharing national and international experiences under the guidance of science.

As a sub-brand of EDU Publishing, EDUCongress is an academic platform established by a team that has combined years of academic and congress experience with the aim of contributing to the future of education. EDUCongress aims to grow through the participation and support of faculty members from various universities both in Türkiye and abroad, together with the dedicated efforts of the congress team. It adopts a collaborative approach that values education and educators, promotes constructive dialogue, emphasizes learning and teaching, highlights commonalities rather than differences, and encourages collective work.

In addition to promoting the dissemination of knowledge in the field of educational sciences, EDUCongress seeks to collaborate with institutions working to improve the education and quality of life of disadvantaged groups.

Vision

To build strong connections among educators.

Mission

To bring together all stakeholders of education within high-quality scientific content, respond to academic needs, and create enjoyable and professional environments where participants meet leading experts in the field.

Our Core Values

- Promoting policies, principles, strategies, and best practice standards in educational sciences at national and international levels
- Producing publications that contribute to databases for research and project studies in education
- Working through academic-led teamwork
- Valuing science, scholars, and scientific institutions
- Respecting productivity, effort, and those who contribute
- Developing scientific solutions to educational challenges
- Adopting a collaborative rather than individualistic learning approach
- Highlighting shared values instead of differences

Providing congress services in educational sciences at international standards and quality

ABOUT US

EDU Publishing is an academic and scientific publishing house. We began this journey as a team of three professionals, two of whom are academics with extensive experience in academic publishing. At the same time, we are part of a large, long-standing team that collaborates, produces, and creates together.

Our fields of activity include books and periodicals, education, consultancy, project management, and scientific events.

Our aim is to produce publications primarily in education, as well as in sociology, psychology, research methods, and management; to organize trainings and academic events; to conduct research addressing the needs of academia; and to contribute meaningfully to the field.

Our goal is to become a reference center for all scientific studies needed by academics.

Across all activities, our fundamental principle is to progress under the guidance of science.

EDU Publishing closely follows global developments in education, brings high-quality translated works into the national language, collaborates with experts and institutions in the field, and embraces technological innovations by integrating them into its planning and working methods.

With its experienced management and expert team, EDU Publishing strives to deliver excellence in all service areas by valuing science, respecting labor and productivity, and fostering a collaborative learning culture.

WHY

SHOULD YOU ATTEND EDUCONGRESS?

- ▶ EDUCongress offers an international and interdisciplinary academic environment that brings together scholars, researchers, policymakers, and educational practitioners from different countries.
- ▶ It attracts a diverse participant profile spanning higher education, school education, adult education, and lifelong learning.
- ▶ The congress provides opportunities to present your research, projects, and innovative educational practices on an international platform.
- ▶ It enables high-quality academic discussions on contemporary approaches to teaching and learning, educational policies, and leadership perspectives.
- ▶ Innovative educational models and future-oriented trends are examined together with leading experts in the field.
- ▶ Innovative educational models and future-oriented trends are examined together with leading experts in the field.
- ▶ By offering journal articles and book chapter publication opportunities, EDUCongress supports the transformation of conference presentations into lasting academic outputs.
- ▶ It fosters international academic interaction, networking, and sustainable collaborations.

OUR CONGRESSES

EDUCongress2026, 9–12 September

Theme: “Artificial Intelligence and Digitalisation in Education: Core Concepts, Impacts, and Challenges”

Gaziantep University

EDUCongress2025, 26-29 November

Theme: “Designing Future Education Systems”

İstanbul University-Cerrahpaşa, Antalya, 710 presentations

EDUCongress2024, 18-21 September

Theme: “A Fair Education: Scientific, Inclusive, and Sustainable”

Dicle University, Diyarbakır – 745 presentations

EDUCongress2023, 20-23 September

Theme: “Good Practices in Education: Teaching, Learning, and Research”

Ankara University, Ankara – 760 presentations

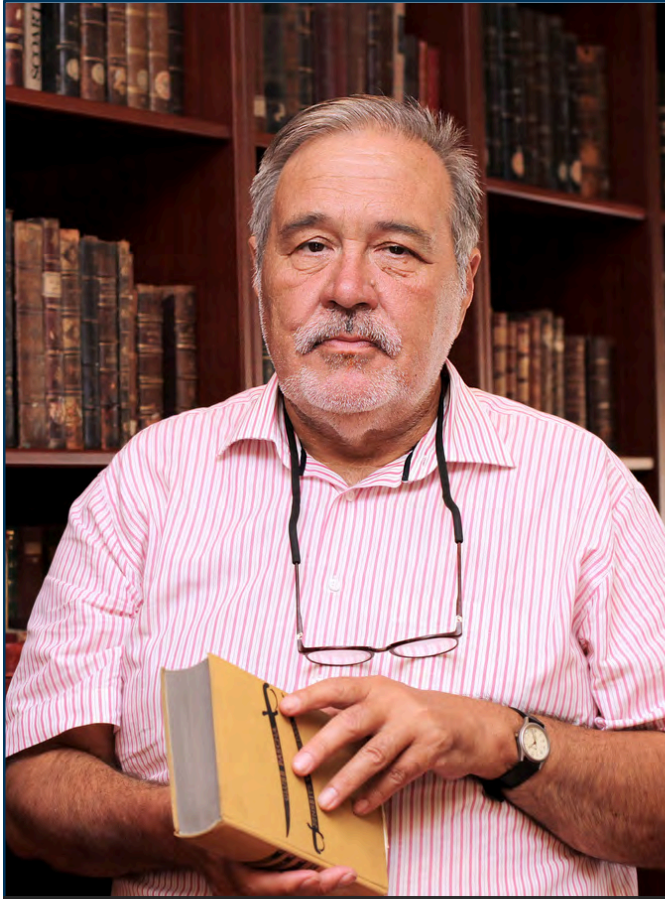

EDUCongress2022, 17-19 November

Theme: “Empowering Educators: Strategies, Policies, and Practices”
